

STATUS 12-0
PLANNING COMPLETED

- A. Definition:** This status is only used when an IPE has been developed with a job candidate but services are not scheduled to actually begin for an extended period of time. If services are scheduled to begin immediately or in a fairly short period of time, the case should be placed directly in the status where services will be provided (14, 16, or 18).
- B. Scope of Services:** No services are actually provided in this status. It is only a holding status. ISE cases that are being evaluated in terms of feasibility should be done in Status 14-0 or 18-7.
- C. Agency Expectations:**
1. Cases closed from Status 12 go to Status 30.
 2. IPE-3 is completed.
