

WE MEASURE OUR SUCCESS ACCORDING TO THE IMPACT WE HAVE IN DRIVING YOUR BUSINESS FORWARD.

Through Iowa Self-Employment (ISE), entrepreneurs may receive technical and/or financial assistance to start, expand or acquire a business. ISE offers orientations, business consultation, counseling services, and opportunities to collaborate with other professionals.

“Empowering clients to turn their entrepreneurial dreams into reality while doing what I do best, every day. It just doesn’t get any better than that!”

*Dennis Bogenrief, MBA
ISE Business Development Specialist*

Iowa Self - Employment

Finding solutions. Generating success.

Our VISION is to provide quality, expert, client-centered services to Iowans with disabilities that embrace diversity, promote successful business ownership and result in self-sufficiency and economic development.

WE ARE COMMITTED TO PROVIDING PROFESSIONAL STRATEGIES THAT DIRECTLY IMPROVE YOUR COMPANY'S SUCCESS.

"It is not always an easy process to create a new working life that suits not only one's disabilities, but also takes into consideration family, community and personal goals. However, clients share finding the process and outcomes as extraordinarily fulfilling, both personally and economically. We don't always know where we will end up, but the finalized plan and proposals almost always represent a far greater dream and attainable goal than where we started."

*Debbie Grace
IVRS Rehabilitation Counselor*

IOWA SELF-EMPLOYMENT (ISE) PROGRAM

Iowa Self-Employment (ISE) is a program designed for clients of Iowa Vocational Rehabilitation Services (IVRS) or Iowa Department for the Blind (IDB), whose vocational goal is self-employment. This program is administered by IVRS and works in partnership with IDB. Following eligibility and self-employment assessment, a referral may be sent to ISE personnel.

ISE ELIGIBILITY CRITERIA

- Have a qualifying disability that results in a barrier to employment
- Demonstrate knowledge, skills, ability and interest to own, operate, and actively manage a business
- At least 51% ownership in an appropriate, legal and for-profit Iowa-based business
- An employment plan that outlines a goal to achieve economic independence
- An approved ISE program application

WHAT WE DO/HOW WE DO IT

ISE works with the IVRS/IDB counselor and professional staff to outline a plan of action to assess an individual's qualifications, the business idea and feasibility that facilitates development of the business plan. A client may be eligible to receive Technical Assistance (TA) and/or Financial Assistance (FA).

Long recognized as serving Iowans with disabilities, IVRS began expanding self-employment options in 2007. ISE has helped many individuals in various occupations such as:

Accident Reconstructionist	Equine Assisted Therapy
Auto Repair	Exotic Animal Breeder
Carpentry	Tax Services
Chiropractic	Taxidermy
Construction	Veterinary Medicine
Consulting	Videographer
Engineering	Woodworking

"A key to the success of my firm was formed from the professional advice and services offered through the Self-Employment program."
